

Xinyao Wood High-Density Ultra-Thin Fibreboard Technical Report

Manufacturer technical information for thin MDF product specification, production reference and inspection review.

PRODUCT	MDF Board / Medium Density Fibreboard
THICKNESS OPTIONS	0.8 / 1.2 / 1.7 / 1.9 / 2.2 / 2.4 / 2.6 / 2.9 / 3.7 / 4.5 / 5.8 mm
STANDARD SIZES	1220 x 2440 mm / 1240 x 2460 mm
DENSITY OPTIONS	680 / 780 / 800 / 850 / 1000 kg/m ³
SURFACE	Raw / smooth sanded surface
PRODUCTION REFERENCE	Qualified grade in accordance with applicable Chinese national standard
LOADING PORT	Tianjin Port, China

MANUFACTURING REFERENCE

- Continuous flat press MDF production line.
- Raw material preparation, fiber processing, mat forming, continuous pressing, cutting, sanding and packing stages.
- Final product specification must be confirmed before mass production and shipment.

FACTORY INSPECTION ITEMS

- Thickness test and density test.
- Moisture content test and internal bonding strength review.
- Bending strength, surface quality and formaldehyde emission test items according to product requirements.

Document status: Manufacturer-issued technical summary based on the Xinyao Wood MDF Product Catalog. This is not a third-party certificate and is not a shipment-specific laboratory result.
